

More Detailed Information

What kind of equipment do you use?

We use high definition Canon XH A1 HDV 3 CCD cameras for vibrant color and spectacular resolution and quality. They have 20x zoom lenses to allow a close-up even at 75 feet. We use professional, true fluid tripods for smooth operation and skilled camera operators. Interviews are captured with a special microphone to reduce the background noise that is common to on-camera audio.

What is the advantage of 3 cameras?

Commonly, the bride and groom face away from the audience during most of the ceremony. Because the main camera is positioned near the sound board, it is usually placed in the back of the room alongside a supplemental wide-shot camera. Having a camera on the stage or choir loft allows a view of the bride and grooms faces and the lighting of the unity candle. It can also be beneficial to have 2 camera operators at the ceremony to capture close-ups throughout.

Do I need 14 hours of coverage?

No. But you need enough hours to cover all the events you want recorded during your wedding day. You may have a hair appointment at 10am and the reception ending at midnight necessitating 14 hours of coverage. Even though the coverage is not necessarily continuous, we have a capture team available during those hours to capture the main events.

How long is the final DVD?

Our final DVD's have approximately 3 hours of content. In most cases we even use a dual layer DVD. Our highlight videos are approximately 12 minutes long and consist of 3 segments. They show a music video of the rehearsal and preparations, a summary of the vows, and a music video of the reception.

Do you offer any ceremony-only packages?

Yes. We have a second filming crew that is fully capable of capturing only your ceremony with the same high quality cameras and operators. This alternative does not include many of the features in our other packages but is available for less than \$500. You may also ask us to customize any of our packages.

Can I be involved in the editing process?

Most definitely yes. Even though we are fully capable, we consider each project a team effort. We even keep the project for over a year just in case anything needs to be changed later.

About Us

We have been happily married for over 10 years and have 3 precious children. During that time we have helped many ministries with media support and have extensive experience in audio, video, and lighting system design and operation. We now specialize in wedding videography and have filmed over 120 weddings with an unobtrusive and documentary style. Our goal is to capture your special moments and tell your wedding story for you to cherish for a lifetime. It honors us to celebrate Love on your special day.

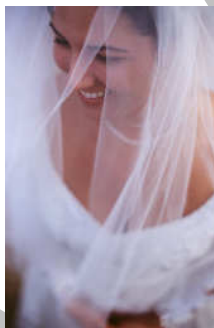

We film in high definition with Canon XHA1 HDV 3-CCD cameras for vibrant color and high resolution. The ceremony is filmed with multiple cameras to capture the entire essence of the occasion. The video footage is digitally edited and includes a 12 minute highlight video that summarizes the entire wedding festivities. The final DVD also has a menu with options to view the preparations, full ceremony, reception, and photo montages, and usually contains over 3 hours of content. We also upload your highlight video onto our website for your friends and family to enjoy.

We provide many standard features in our packages to offer a more comprehensive solution at a relatively affordable price. You do not pay extra for a lapel mic, a highlight video, a photo montage, or credits and packaging, which sets us apart from others. Capturing special moments of time on video is a very rewarding passion of ours and we look forward to serving you. All of our packages include the following features:

Standard Features Included

- Video captured in high definition and delivered in standard definition widescreen
- Professional wireless lapel mic for clear audio during vows
- Photo montage video (slideshow) with childhood and/or dating photos set to music (from 75 jpeg images that you supply) and use of 20" LCD TV at reception
- Highlight video of the entire festivities including preparations and reception summarized in approximately 12 minutes to music
- DVD to include menu with options for event highlight video, full ceremony, reception, and photo montage
- Rehearsal and dinner appearance to add to highlight video
- Digitally edited and mastered video
- Customized packaging and credits on video
- Includes 5 copies of final edited video on DVD

A 50% non-refundable deposit is required to reserve your date with the remainder of the balance due before your wedding. We gladly guarantee our work!
